

**Item 1: Need for University apology to descendant community in Baldwin Hall matter**

At the direction of the Senate, the ad hoc committee on Baldwin Hall presents the following potential resolution for discussion:

The Faculty Senate of the Franklin College of Arts and Sciences judges that in the matter of Baldwin Hall, the rights of the descendant community were not sufficiently respected by UGA's manner of exhuming, reburial, and researching the graves and human remains discovered in the Old Athens Cemetery. The Senate therefore urges President Jere Morehead to issue an apology to the descendant community.
